Survey Form:

Surveys in mobile mode will be much larger and simplified compared to their full mode counterpart.

Text Comments:

Entering comments in mobile mode is similar to sending a text to a friend. Clicking on the question or the text box will open the text editor on the phone (for example, the keyboard on an iPhone) so users may enter comments.

Saving or Submitting:

The option to save progress is available when taking surveys on either the full site or the mobile site.
