SCOPE OF SERVICES FOR
UNIFIED AND INTEGRATED ONLINE/INLINE CASHIERING SOFTWARE SYSTEM

I. BACKGROUND:

HCC currently maintains an online registration and online web payment as part of its Online Student Services. However, this online service is quite limited in functionalities and options such as those listed below:

- Foremost in its limitations is the inability to offer students Payment Plans online. Students must come to the campus to set up a payment plan, sign the promissory note and make the first payment. The cashier fills out the promissory note with all the details required, accept and record the payment on the student account and put a service indicator that the student is on a payment plan;

- It can only accept credit card payments. It does not have the functionality to accept debit card payments or electronic check payments;

- It does not have the flexibility to accept and record payments for multiple terms. If a student payment is registered for two (2) or more terms, it does not offer the student the ability to pay for each term respectively. All payments go to a default term.

HCC Cashiering program is PeopleSoft delivered and is also quite limited in functionalities and options such as:

- Current system allows payment only by credit card, cash, money order, and check. It does not process electronic check or debit card payments;

- Credit payments made thru the cashier’s window are run through Telecheck machines and do not interface with PeopleSoft. Cashiers have to manually input information in PeopleSoft;

- Credit Card payments thru the cashier’s window cannot be refunded to the same credit card.

HCC has been processing an average of 6,800 payment plans for Fall and Spring terms and about 600 for the Summer terms. In terms of amount, HCC is manually handling $11 million worth of promissory note under its present payment plan. For each term, HCC sends out two (2) notices of due dates to all students under the plan.

HCC is currently using two (2) vendor–maintained programs in handling credit card payments; Cybersource for web credit card and Telecheck for inline credit card.
II. **Project Requirements:**

HCC requires a unified inline and online system that will address the following:

- Provide campus constituents with a secure infrastructure for making online payments and over-the-counter payments;
- Provide students with the maximum payment options available and not be limited to credit card only for online system and also not limited to the standard cash, money order, credit cards and checks for inline system;
- Automate tuition payment plan management to allow students to sign-up online;
- Offer alternate payment plans that are flexible; however complies with the state statutes;
- It shall include electronic bill presentation;
- Integrate in real time with our PeopleSoft Student Administration and PeopleSoft Finance systems;
- Be scalable to incorporate future system expansion;
- It must be PCI DSS (payment Card Industry Data Security Standard) complaint;
- Provide a central payment gateway capable of processing system-wide payments including all electronic payments available;
- Provide web-based usage, reporting and set-up;
- Be easy and fast to install without placing a demand on HCC resources.
